ABOUT

I'm a brazilian exchange student looking for a great experience in a summer internship of 2016.

I'm passionate by user experience and web development. I enjoy to constantly improve my code. I'm fluent english speaker that likes to listen to ideas and I'm not afraid to express mine.

WORK EXPERIENCE

Framework Development

Court of Justice of Santa Catarina - 11/2014 to 07/2015

Helped to create and test the third version of the framework used to develop web applications for the Court of Justice of Santa Catarina. The most important task was creating components based in **AngularJS** and **Twitter Bootstrap**.

JavaEE Development

Vieira-Ishikawa Software - 08/2014 to 10/2014

Concluded the first phase of the development of a SCADA system based on **Java Server Pages** and Twitter Bootstrap as part of a wind power management project.

Network Monitoring

Federal University of Santa Catarina - 07/2013 to 01/2014

Worked as network manager at the university in the beginning of the undergraduate program. Learned how a big network works and how to deal with panic.

EDUCATION

Computer Science & Info Systems Brazilian Scientific Mobility Program

Stockton University - 08/2015 to 05/2016

Participant of the greatest brazilian's exchange program ever made, Science Without Borders. It's currently studying Information Systems at Stockton University of New Jersey until May of 2016.

Information Systems - Undergraduate

Federal University of Santa Catarina, Brazil - 03/2013 to 08/2017

Engaged in the Information Systems B.Sc. undergraduate program of the Federal University of Santa Catarina.

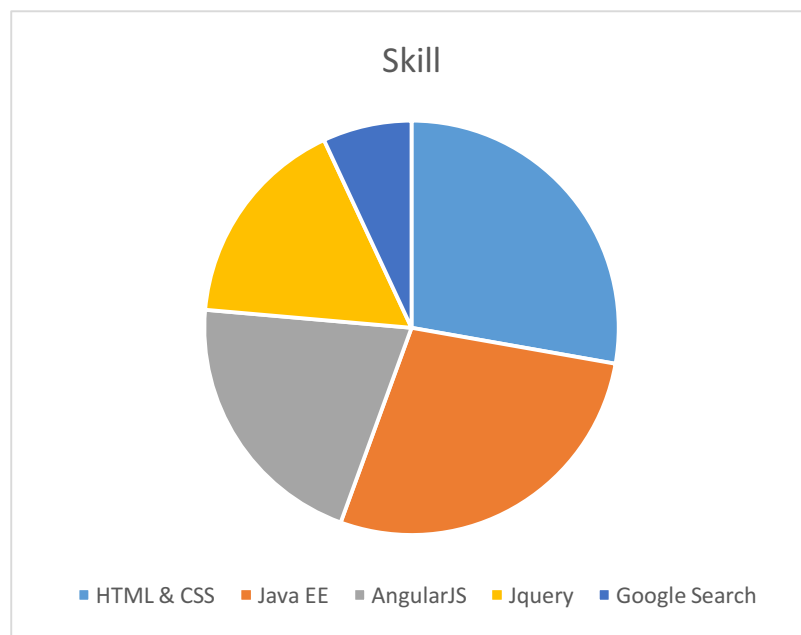

Java Programming

Vale do Itajaí University, Brazil - 04/2014 to 07/2014

Concluded the 280 hours course of Java Programming at Geração TEC.

SKILLS

This chart shows my prominent skills:

I have experience in **MySQL, Oracle, Sass Preprocessor, MVC architecture** and **Ionic/Cordova**.
